Meetings and Dates

Purpose	Start	End
The primary purpose of this meeting is to update the Committee on the progress of the implementation of the recommendations made as a result of the National Institute of Standards and Technology (NIST) Technical Investigation of the May 22, 2011, Tornado in Joplin, Missouri and provide the Committee with an overview of the ongoing work related to the recent reconnaissance teams deployed to Texas, Florida, Puerto Rico and California	02/20/2018	02/20/2018
The primary purpose of this meeting is to update the Committee on the progress of the NCST investigation of Hurricane Maria's effects on the U.S. territory of Puerto Rico. The goals of the investigation will be to characterize: (1) The wind environment and technical conditions associated with deaths and injuries; (2) the performance of representative critical buildings, and designated safe areas in those buildings, including their dependence on lifelines; and (3) the performance of emergency communications systems and the public's response to such communications.	05/16/2018	05/16/2018
The primary purposes of this meeting are to update the Committee on the progress of planning for the NCST technical investigation to study building failures and emergency response and evacuation during Hurricane Maria, which made landfall in the U.S. territory of Puerto Rico on September 20, 2017, and the implementation of recommendations from previous NCST investigations, including the Joplin tornado investigation.	08/30/2018	08/30/2018

18d. Total	\$49,243.66	\$45,980.96
19. Federal Staff Support Years (FTE)	0.20	0.20

20a. How does the Committee accomplish its purpose?

This Committee advises the Director of NIST on carrying out the provisions of P.L. 107-231 and reviews the procedures developed under section 2(c)(1) of the Act and reports issued under section 8 of the Act. The Committee advises the Director of NIST by providing advice on the functions of National Construction Safety Teams under section 2(b)(2); providing advice on the composition of Teams under section 3; providing advice on the exercise of authorities under sections 4 and 5; providing advice on the procedures developed under section 2(c)(1); and providing advice on the reports issued under section 8.

20b. How does the Committee balance its membership?

Members reflect the wide diversity of technical disciplines and competencies involved in the National Construction Safety Teams investigations. Members are drawn from industry and other communities having an interest in the National Construction Safety Teams investigations, such as, but not limited to, universities, state and local government bodies, non-profit research institutions, and other Federal agencies and laboratories.

20c. How frequent and relevant are the Committee Meetings?

The Committee meets at least once per year. To promote efficient spending, as directed by Executive Order 13589, the Committee conducts web conferences or teleconferences in lieu of face-to-face meetings, when feasible.

20d. Why can't the advice or information this committee provides be obtained elsewhere?

This Committee is required by law. The law requires this Advisory Committee to help the

Director of NIST to fulfill his/her responsibilities under the National Construction Safety Team Act, P.L. 107-231.

20e. Why is it necessary to close and/or partially closed committee meetings?

N/A

21. Remarks

This Committee functions solely as an advisory body, in accordance with the provisions of the Federal Advisory Committee Act. One face-to-face meeting was held in FY 2018 on August 30, 2018. The report that will be produced as a result of this meeting will be submitted to Congress on January 1, 2019. The estimated annual cost of the committee is \$50,000 per year, the actual cost for FY18 came in at \$49,243 due to the cost of employee labor, Committee member travel, and meeting venue expenses. The FY19 cost is estimated at \$45,980 due to less anticipated employee labor.

Narrative Description

The National Construction Safety Team Act (P.L. 107-231) was signed into law by the President on October 1, 2002. The Act authorizes the Director of the National Institute of Standards and Technology to establish National Construction Safety Teams (NCST) for deployment after events causing the failure of a building or class of buildings that has resulted in substantial loss of life or that posed the potential for substantial loss of life. The

Act directs NIST to establish a Federal Advisory Committee to advise the Director on carrying out this Act and to review the procedures developed under Section 2(c)(1) of the Act and the reports issued under Section 8 of the Act. The National Construction Safety Team Advisory Committee is composed of individuals who are experts in their respective fields. The committee advises the NIST Director and NCST teams on the conduct of investigations, reviews and provides advice on the technical approaches used in investigations, reviews and provides advice on findings, conclusions and recommendations resulting from NCST investigations, and reviews and provides comments on written investigation reports. The NCST Advisory Committee provides an outside perspective to NCST investigations that lends credibility to the resulting findings, conclusions, and recommendations.

What are the most significant program outcomes associated with this committee?

Checked if Applies

- | | |
|---|-------------------------------------|
| Improvements to health or safety | <input checked="" type="checkbox"/> |
| Trust in government | <input checked="" type="checkbox"/> |
| Major policy changes | <input type="checkbox"/> |
| Advance in scientific research | <input checked="" type="checkbox"/> |
| Effective grant making | <input type="checkbox"/> |
| Improved service delivery | <input type="checkbox"/> |
| Increased customer satisfaction | <input type="checkbox"/> |
| Implementation of laws or regulatory requirements | <input checked="" type="checkbox"/> |
| Other | <input type="checkbox"/> |

Outcome Comments

NA

What are the cost savings associated with this committee?

Checked if Applies

- | | |
|----------------------------|-------------------------------------|
| None | <input type="checkbox"/> |
| Unable to Determine | <input checked="" type="checkbox"/> |
| Under \$100,000 | <input type="checkbox"/> |
| \$100,000 - \$500,000 | <input type="checkbox"/> |
| \$500,001 - \$1,000,000 | <input type="checkbox"/> |
| \$1,000,001 - \$5,000,000 | <input type="checkbox"/> |
| \$5,000,001 - \$10,000,000 | <input type="checkbox"/> |
| Over \$10,000,000 | <input type="checkbox"/> |
| Cost Savings Other | <input type="checkbox"/> |

Cost Savings Comments

NA

What is the approximate Number of recommendations produced by this committee for the life of the committee?

25

Number of Recommendations Comments

In the NCSTAC's most recent report to Congress (submitted December 20th 2017) they made three new recommendations to NIST. Below is a brief summary of the recommendations. 1. NIST should conduct additional analysis regarding the presence or absence of communicator strategies to reach populations at risk, including the mechanisms and technology to help decision making about protective actions such as evacuation and sheltering. 2. NIST should spend more effort looking at the cost and benefit of implementing their recommendations. 3. The Committee recognizes and applauds the activities of NIST social and behavioral scientists to develop technical and scientific knowledge about risk. This is currently being translated into hazard maps and damage indicators. The Committee recommends that NIST continue the effort, with consistent attention given to portraying such information in appropriate scientific terms as well as terms that can be understood by community officials and the general public. This will help reach and affect the decision making of vulnerable populations.

What is the approximate Percentage of these recommendations that have been or will be Fully implemented by the agency?

68%

% of Recommendations Fully Implemented Comments

NIST implemented the consensus advice received from the NCST Advisory Committee in finalizing the issues described above and preparing the recommendations for changes to codes, standards, and practices documented in the final report. Of the 25 formal recommendations made over the life of the Committee 17 have been fully implemented, 6 have been partially implemented, and 2 recommendations were declined.

What is the approximate Percentage of these recommendations that have been or will be Partially implemented by the agency?

24%

% of Recommendations Partially Implemented Comments

The six recommendations NIST has partially implemented were either more costly and intrusive than necessary to collect research data, not feasible, are in the process of being implemented, or are outside of NIST's mission. Therefore NIST implemented a part or parts of the recommendation.

Does the agency provide the committee with feedback regarding actions taken to implement recommendations or advice offered?

Yes ☒ No ☐ Not Applicable ☐

Agency Feedback Comments

NIST provides feedback directly to the Advisory Committee during its meetings, either face-to-face, via teleconference or web conferencing.

What other actions has the agency taken as a result of the committee's advice or recommendation?

Checked if Applies

Reorganized Priorities	<input type="checkbox"/>
